

20:01:05 From Pamela Giese : Hello from Newcastle-upon-Tyne,  
UK  
20:01:24 From Karin : Hello from Denmark :)  
20:01:44 From Virna Koutrakou : Hello from Athens, Greece  
20:02:15 From Tracey : Hi from the far North Australia, The  
Kimberley  
20:02:19 From Janny : Hello from the Netherlands  
20:02:31 From Lyra's iPhone 13 Pro Max : Good morning from  
Stratford-Upon-Avon Uk ✨  
20:06:36 From Ilona : Thrilled!! Mark Jones - knighting the  
agency  
20:09:55 From Julija Simas : Yes for sure ilona  
20:10:42 From Julija Simas : Yeah phenomenal  
20:21:09 From Ilona : the whole map  
20:26:42 From Julija Simas : I is agree  
20:26:53 From Julija Simas : So agree  
20:27:34 From Tracey : Yes it tells the whole story,  
Esoteric Astrology  
20:28:47 From Tracey : Esoteric Astrology South Node is  
gifts we bring in...its not separate. Art of Synthesis.  
20:32:58 From Ilona : so is it, in one way, more that we  
come to meet a heliocentric node, instead of the nodes 'transiting  
us'  
(even if outer planet nodes move more on a generational scale)  
20:40:01 From Julija Simas : Yeah wow  
20:40:53 From Ilona : but 22 Cap was were Venus and Mars  
where at the moment of the invasion  
20:45:33 From Arielle Guttman : I have been thinking lately  
that the outer planets' meanings could be more extracted from their  
actual positions--for instance Neptune being more related to Leo/  
Aquarius etc.  
20:48:50 From Arielle Guttman : yes!  
20:48:53 From Sue Minahan : Create and destroy like Kali -  
to ever evolve form connected to spirit - speaking about Pluto  
tearing it down,  
20:49:33 From Arielle Guttman : do you know if the solar  
fire planet nodes positions are geo or helio?  
20:49:56 From Arielle Guttman : thanks  
20:56:36 From Ilona : Julia, didn't you just post the Gemini  
Star Point will be on Ur NN  
20:57:03 From Arielle Guttman : adding to the element of  
explosiveness to 9/11 is the Sun square thenodes of UR!  
20:57:16 From Julija Simas : Yes ! The closest star point  
to the node of Uranus  
20:58:03 From Julija Simas : Aldebaran and Antares 14,  
Gemini Sag also known as the atomic axis  
20:58:14 From Ilona : absolutely breathtaking  
20:59:22 From Tracey : If your Sun is exact on the degree of  
say Jupiter Node, would you imagine that the soul spent a long time  
on Jupiter, just prior to journeying to Planet Earth? Bringing in an  
Intense Jovian energy field?  
20:59:51 From Arielle Guttman : Good question (LOL) My Sun  
is on Jupiter's NN  
21:00:19 From Arielle Guttman : Don't know the answer, but I

do know I have a large appetite (for food and for life)  
21:00:32 From Tracey : Same here, and I'm very Jupiter in my  
earthly outlook  
21:01:22 From Julija Simas : My Lunar Nodes are on the nodes  
of Jupiter -  
21:01:45 From Ilona : wow Julija  
21:02:14 From Tracey : Love this work and Evolutionary  
cycles, Fantastic to see the Astrology actually perfectly maps out  
the story...using the Nodes. Great work Mark  
21:03:05 From Sue Minahan : Jan 12 2020 the Cap Stellium of  
22° similar to the 1512 (I think it was) sacking of Rome  
21:07:28 From Arielle Guttman : This is AMAZING research,  
Mark, thank you so much. So many endings of wars with planets  
conjunct Neptune!  
21:07:38 From Ilona : last September/October Pluto was back  
at 27Cap  
21:07:42 From Arielle Guttman : Neptune's nodes, that is  
21:07:43 From Julija Simas : Yes the ending s with NeP  
21:08:05 From Julija Simas : Yes the Israel war  
21:08:28 From Tracey : Is there a book or table , like a  
Nodal Ephemeris, to show the exact degree of the outer planet nodes  
for the last and next 50-100 years?  
21:08:58 From Sue Minahan : 2020 the war of bugs / virus -  
nature strikes / rebels  
21:09:19 From Julija Simas : Mark said he has an Ephemeris  
on his site  
21:10:10 From Arielle Guttman : It will take some time, but  
Pluto now in AQ will get to Neptune's nodes....eventually  
21:10:59 From Ilona : yes, blown away!!  
21:11:06 From Pamela Giese : yep, it's several years before  
Pluto gets close to 11 AQ  
21:11:18 From Astrid Fallon : We can hope Jupiter's transit  
in Leo, conjunct Neptune NN, will help ?  
21:11:50 From Julija Simas : 2030-31  
21:12:09 From Tracey : What's Neptune's Nodes degree/sign I  
can't seem to see the bottom of Marks screen no matter what view I  
change it to..  
21:12:18 From Ilona : oh I love and miss Chicago  
21:12:50 From Julija Simas : Neptune 11 Leo -AQ  
21:13:06 From Tracey : Thanks Julija  
21:14:17 From Julija Simas : And Saturn and Neptune are  
about to meet  
21:15:44 From Julija Simas : C\*I\*As Mercury is at 11 Leo,  
conjunct Neptune's Node - always loved that  
21:15:47 From Ilona : Mark, do you see another level of  
timing and events if you bring in the nodes of the inner planets and  
Mars into those larger schemes?  
21:16:35 From Julija Simas : Neptune's North Node  
21:16:37 From Karin : Ilona, this is a good question :D  
21:16:53 From Arielle Guttman : My natal Uranus is conjunct  
the N Nodes of both Mercury and Venus (writing/Venus/Astrology)  
can't make this stuff up!!!  
21:17:14 From Julija Simas : Haha Arielle but of course hey  
21:17:16 From Ilona : for individual charts, do you use the

heliocentric position for inner planets now?

21:18:08 From Tracey : I've got my Natal Mercury, conj Saturn Nodes & Sq my Nodes, always been interested in Grand Cycles of time and evolution and karma, Plus I'm an Author he he, Hypnotherapist so take people back in "Time" to root cause....Fascinating

21:19:25 From Ilona : Arielle, you made a fascinating point, for the signification of Neptune has so much in common with the Leo Aqu axis!

21:19:40 From Karen Mullen Smith : This is extraordinary research Mark. Important now and I suspect will become even more important as time goes on. Do you believe there is a conscious intention and awareness to these patterns. In other words, are there people (beyond Astrologers), military, for example who are aware of these patterns? I know you mentioned Theodor Landscheidt.

21:24:03 From Arielle Guttman : Mark has opened the door here for all astrologers to get a working knowledge of this. I myself will continue to research more workings into natal charts as I am fascinated by these planetary nodes. I'm thinking of Julija and our C\*I\*A work with the VSP -- interwoven with planetary nodes.

21:32:18 From Arielle Guttman : Extraordinary gratitude for all the research you've done in this fascinating subject, Mark. Thanks!

21:32:25 From Astrid Fallon : Thank you Mark, for this excellent presentation!

21:32:29 From Ilona : this is immense really blown away

21:32:38 From Ilona : thank you so much!!

21:32:39 From Deborah Beth : Thank you, very interesting and thought provoking!

21:32:44 From Lyra's iPhone 13 Pro Max To All Panelists : Can you see and tell us where these planetary nodes align in the future, as a guide of what's to come?

21:32:46 From Ilona : oh yes

21:32:52 From Melanie Johnstone : Very interesting. Thank you very much!

21:33:06 From Virna Koutrakou : Amazing presentation, so much material and of such importance to go through!

21:33:07 From Pamela Giese : Great research! What a wonderful chart examples! No much to consider. Thank you very much!

21:33:22 From JYOTA aka Yamil : I refrained from writing while your discourse opened a portal of vast information...Thank you kindly Mark..will need several days , perhaps weeks to digest the impact of this knowledge...all the best for future endeavours... sincerely, Jyota

21:33:37 From didem can : Thank you, it was great presentation.

21:33:59 From Pamela Giese : oops I meant SO much to consider!

21:34:03 From didem can : Thank you Julia for the webinar

21:34:11 From Sue Minahan : I love this presentation!

Valuable 100% long time since Norwac back in years yore!! I love the focus of this release and direction of movement... we're all headed

north in the galaxy. This works!! dynamics. And Solar Fire has these. Thank you Julija for scheduling. It's food! It supports. Thanks!!

21:34:12 From Virna Koutrakou : Julija, could you ask Mark about the orbs he uses for cosmic events and for personal charts? (because the nodes are moving so slowly)

21:34:28 From Arielle Guttman : Mark, would you consider hosting a master class or weekend on this subject in the UK - or somewhere in Europe?

21:34:34 From Lyra's iPhone 13 Pro Max To All Panelists : Thank you for sharing this today with us, as it's fascinating and I wonder what your views are when physicists talk about us living in a simulated environment, a construct 🤔

21:35:12 From Virna Koutrakou : Good idea Arielle!

21:36:46 From Virna Koutrakou : thank you!

21:37:58 From Sue Minahan : My solar return:) ah

21:38:11 From Arielle Guttman : I'd been thinking about Jupiter coming onto the VSP Gemini, but now the Nodes of Uranus there. That was also where the transit of Venus was, with all the new tech

21:39:50 From babt : overwhelm of nervous system on the rise because of technology, a new kind of dripping trauma

21:41:18 From Tracey : Back to Nature, Community Gardens :)

21:41:26 From Ilona : we're overlooking it's non linear and we're going somewhere else altogether

21:42:11 From babt : no AI can substitute the need for a meaning-making function

21:42:31 From Ilona : Mark, in mundane events, if you add the nodes of the inner planets, do you see another level of timing and unfolding?

21:42:37 From Arielle Guttman : and no AI can substitute the need for heart connection and human love

21:44:06 From Heather Montgomery To All Panelists : We will be redefining what plagiarism is

21:44:13 From Tracey : Feels like the "old" Atlantis Lemuria dilemma! Again!

21:45:01 From Sue Minahan : Like Castor and Pollux - connect spirit with matter - yes we need "holistic composting" - gotta ground. seems the message of Uranus Taurus Gaia age old.

21:47:46 From Ilona : the other way round, astrology can show the context and the storyline of what is going on

21:49:22 From babt : developing a "vertical" dimension of awareness gets more and more urgent..or the healing, safety creating component of cancer NN could wobble on shaky basis.thanks Mark for carrying the spiritual value of this work the way you do

21:50:03 From Ilona : Mark, do you look at the nodes of inner planets in mundane events?

21:51:26 From Ilona : monitoring Mars for those loaded degrees in Capricorn, anyway

21:52:21 From Melanie Johnstone : Yes, carrying the spiritual value the way you do is wonderful Mark. Many thanks for a very informative presentation.

21:52:21 From Tracey : Yep YAY!

21:52:39 From Tracey : Common Sense vs Lost in the AI

Illusion

21:53:46 From Arielle Guttman : I think there is enormous interest!

21:54:48 From Sue Minahan : yes sleeping sacred structure -whew! so fabulous!! hahah! yeaya oh YAY!

21:55:07 From didem can : thank you ...

21:55:09 From Tracey : Thank You Mark for Sharing your Passionate interest great value

21:55:51 From Arielle Guttman : ❤️ 🙏

21:55:56 From Sue Minahan : 'Night! from Kailua-Kona HI with the stars out Thank you so much always again!
